The usual precautionary measures are to be adhered to when handling chemicals.

Store protective clothing separately.

The usual precautionary measures for handling chemicals should be followed.

Respiratory protection:

Control exposure to ingredients with workplace control parameters if mentioned above. If no ingredients are listed, respiratory protection is generally not required.

If exposure limits are listed and may be exceeded, use approved respiratory protective equipment and filter type appropriate for the listed ingredients. (NIOSH, CEN, etc.).

Protection of hands:

Material of gloves:

Gloves should be impermeable and resistant to the product. Selection of material should be considered before use.
